Summary

Computer Science student with real-world open-source contribution experience and successfully merged production-level code. Skilled in C++, Qt, and collaborative development workflows, with strong fundamentals in Data Structures & Algorithms and Object-Oriented Programming, with proven ability to work in complex codebases and build clean, maintainable, and user-focused solutions.

Skills

C++, Python, Java, SQL, Qt, NumPy, Pandas, scikit-learn, Git, GitHub, GitLab, MS Excel, MATLAB, Data Structures & Algorithms, Object-Oriented Programming, Open-Source Development Workflow, Documentation & Code Review

Open-Source Contributions– KDE Community(<https://invent.kde.org/roshani>)

- Merged multiple contributions into production branches of KDE projects.
- Improved search plugin functionality by refining regex-based export logic and enhancing UI clarity.
- Resolved UI/UX inconsistencies in Kate Editor, increasing usability and alignment with action workflows.
- Contributed documentation improvements to KDE Developer Tutorials & Article Site, streamlining onboarding for contributors.
- Collaborated with global maintainers via GitLab merge requests and review cycles.
