Summary

Computer Science student with real-world open-source contribution experience and successfully merged productionlevel code. Skilled in C++, Qt, and collaborative development workflows, with strong fundamentals in Data Structures & Algorithms and Object-Oriented Programming, with proven ability to work in complex codebases and build clean, maintainable, and user-focused solutions.

Technical Skills

Programming: C++, Python, Java, SQL

Frameworks & Libraries: Qt, NumPy, Pandas, scikit-learn

Tools & Platforms: Git, GitHub, GitLab, Linux, CI/CD concepts

Core Concepts: Data Structures & Algorithms, OOP, SDLC, Version Control, Basic Software Testing Principles

Other: Documentation, Code Review, Problem Solving

Experience/ Achievement

Google Summer of Code 2026 Contributor – KDE Community (May2026 – August 2026)

- Selected as GSoC 2026 contributor at KDE Community out of global applicants.
- Contributing to the project “**KeepSecret**” — a Qt/QML and Kirigami-based password manager for KDE Plasma.
- Implementing UX improvements including adaptive layouts, sidebar navigation, entry detail panel, and clipboard auto-clear.
- Collaborating directly with mentor Marco Martin via GitLab MRs, code reviews, and async communication.
